Deputy Secretary of State

INTRODUCTION

To the reader:

This volume of election results from the 1988 Presidential Preference Primary, State Primary and General Elections is one of a series of publications from the office of the Secretary of State, going back over many years, that give the official tallies for election contests. Candidates, scholars, politicians and others interested in the conduct of elections in Vermont have found these books critically valuable in their efforts to understand the ever changing nature of the Vermont political environment.

This volume is based on the official returns of votes submitted to the Secretary of State by the various canvassing committees following each of the three major elections of 1988. In some cases our totals differ slightly from the totals in the state canvass reports prepared at the time of the elections, correcting discrepancies discovered as we prepared this publication.

Once again this year's volume includes the results of the races for the State Senate and House of Representatives, including the recount totals.

A couple of comments on format are in order. We have aggregated the votes for write-in candidates. If you are interested in more specifics on this subject, please contact us and we will be happy to supply them to you.

Because of the number of uncontested races in the 1988 primary election, we have chosen to condense these reports. Instead of printing a separate report for each primary candidate, all the candidates running in uncontested races in a party have been grouped together and printed in a single report.

The general election results indicate that the Liberty Union Party has lost its status as a major political party, because none of its candidates for statewide office received at least 5% of the vote. Accordingly, Liberty Union candidates will not participate in the 1990 primary.

If you have comments on this volume or suggestions for future publications, we would be happy to hear from you.

Sincerely,

James H. Douglas
